Neutral density filter - ND filter 3.0 M67x0.75

Short description: optical density 3.0 - 0.1% transmission, f-stop reduction 10, filter thread M67x0.75

Order number: 2-91-175

Actual Notice: Availability on request.

Characteristics

- to reduce the image brightness without changing the spectral distribution or the depth of field
- can be used for extremely bright inspection tasks such as welding processes or melting, drawing and ignition processes
- to avoid overexposure, blooming and smearing and to protect light-sensitive sensors
- easy to assemble thanks to the black anodized brass mount

Technical data

Filter type	Neutral density filter
Housing material	Filter mount: brass
Optical material	Glass
Thickness optical material	2 mm
Weight	39 g
Mounting	Screw-in socket
Filter thread	M67 x 0.75
